Title Screen
Open App

USC Food Court
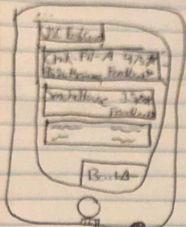

Going to choose which restaurant to order from, you get a subtle overview of each establishment
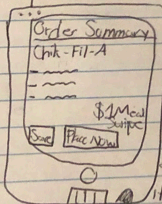

When you choose the one you want, you will then be taken to a screen where you will be displayed the following:
- Star rating
- Hygiene rating
- Hours
- Options for feedback/Ordering

Place Order

Back

You will then be taken to a screen where you will have many options to order, with the option to use meal plan dollars

---

Order Summary
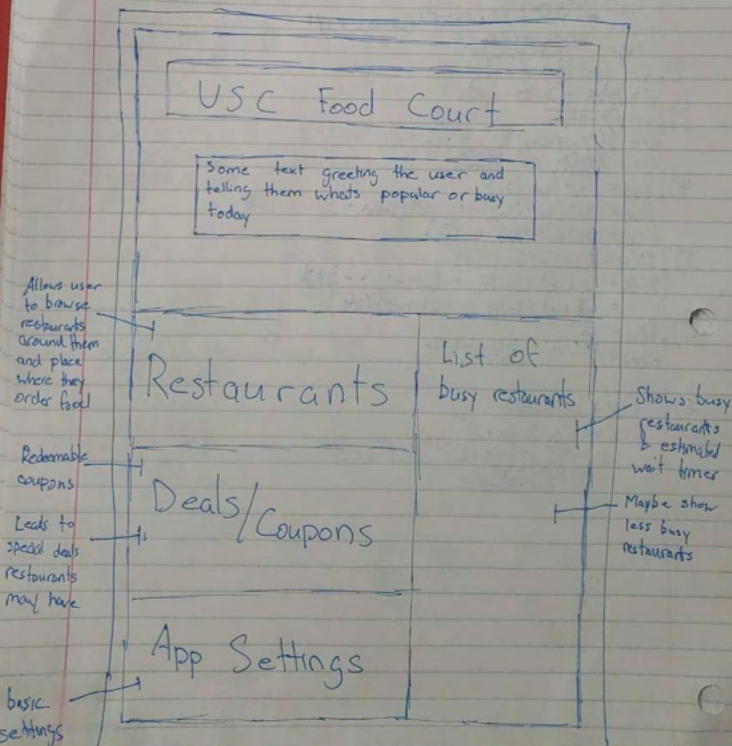

Chik-Fil-A

$1 Meal Swipe

Save | Place Now!

When you are finished ordering, you are greeted with a summary page. You'll have the option to it then, or save later

---

Thank you! We will let you know when its ready!!

When you place your order, you will be alerted on when its ready for pickup!!

Andrew's Sketch

USC Food Court

Some text greeting the user and telling them whats popular or busy today

Restaurants

Allows user to browse restaurants around them and place where they order food

List of busy restaurants

Shows busy restaurants & estimated wait times

Maybe show less busy restaurants

Deals/Coupons

Redeemable coupons

Leads to special deals restaurants may have

App Settings

basic settings

Andrew's Sketch

Restaurants Screen

Restaurants

Filter option

Shows list of restaurants.

Upon clicking a restaurant it will show details about it like location, busy or not, wait times, etc.

When a restaurant is clicked ratings and such appear here
